The Honorable _____

Office Address

United States House of Representatives/United State Senate

City, State, Zip

Dear Representative/Senator _____:

After hearing about the story of Targeted Individual Myron May and other targeted individuals, I have accepted the challenge to do what I can to make a difference. That's why I am urging you to pass a bill or resolution to begin an investigation into the targeting of United States citizens for the types of harassment outlined in my letter below:

Although not widely known by the public, targeted individuals endure a scheme of conduct designed to drive them over the edge mentally, physically, and emotionally. This scheme is referred to among the targeted individual community as "gang stalking." Gang Stalking is a systemic form of control, which seeks to control every aspect of a Targeted Individuals life. Gang stalking takes place outside in the community. It's called gang stalking because the target is followed around and placed under surveillance.

Gang Stalking Goals

The goals of gang stalking are to (a) silence an individual, (b) drive a victim insane and possibly to the point of suicide, and (c) destroy the victim's reputation and believability—as the person will be viewed as mentally ill if they complain or report such abuse. Gang stalking may also be used to force an individual to move or leave an area.

Motivations for Gang Stalking

The motivations for gang stalking vary widely. Three of the most common are as follows:

- Being a corporate or government whistle blower (particularly if you are exposing conduct that is unbecoming of law enforcement);
- Revenge for getting away with a criminal offense;
- Knowing too much about gang stalking itself—because you become a threat to exposure

Who Are The Stalkers?

For the most part, stalkers are everyday citizens that are usually acting under some type of guise (e.g., that they are doing something positive for the community; a false accusation that the targeted individual is under investigation for a crime). Other stalkers, however, are simply paid to harass a targeted individual. Sadly, many of these gang stalkers are involved in law enforcement.

Examples of Gang Stalking Harassment

Here are some of the stalking activities that targeted individuals have to endure: slashed tires, threatening phone calls, hangup calls, verbal assaults by strangers, property damage, death threats, peeping toms, being followed on foot and by vehicle, and character assassination among family, friends, neighbors, and coworkers.

Tactics Used by Stalkers

Anchoring

A technique employed by stalkers to persuade the targeted individual that a particular group is

responsible for the abuse—neighbors, racial-ethnic group, etc. The goal is to trick the targeted individual into thinking an innocent bystander is the culprit of their harassment and compel the targeted individual into verbally or physically assaulting that person.

Brighting

Brighting involves the practice of repetitive flashing of a car's high beam headlights at a targeted individual. The targeted individual is flashed an inordinate amount of times from either a tailgating, passing, or oncoming vehicle. Brighting also occurs when bright lights are flashed into a targeted individual's home windows.

Electronic Harassment

Electronic harassment is the use of technological devices to spy on or cause harm to targeted individuals (e.g., exposure to high electromagnetic fields, microwave radiation, etc.). A frequent form of harassment involves beaming a low frequency tone into a targeted individual's area, which over time causes sleep deprivation, agitation, and stress. A great deal of this research is highlighted in a book written by the pioneer of electronic harassment, Dr. Robert Duncan, which is entitled "Project Soul Catcher: Secrets of Cyber and Cybernetic Warfare Revealed." Other prominent individuals in the field include Dr. Nick Begiche, Dr. John Hall, and Dr. Terry Andersen. In addition to electronic harassment, stalkers utilize nanofibers to track targeted individuals.

Ghosting

Ghosting refers to the practice of rearranging or moving a targeted individual's personal belongings to make the targeted individual question his/her sanity (e.g., moving home furniture, lawn decorations, desk decorations, etc.).

Mimicry

Mimicry is a specialized form of harassment in which the stalkers imitate every movement made by the victim.

Mobbing

Mobbing is a term that describes intense group bullying. Several stalkers descend upon a targets area in the same time period. In these instances, gang stalkers are not as discrete because they want to make their presence known to the targeted individual.

Noise Campaign

A noise campaign is an orchestrated effort to produce stress in a targeted individual by prolonged exposure to noise (e.g., neighbors playing loud music, cars passing at rapid paces, vehicle horns blowing, technological devices to induce dogs to bark, etc.).

Sensitization

Sensitization is a psychological term referring to the forced association between a stimuli and a corresponding reaction. For example, if a targeted individual is frequently harassed by people wearing blue baseball caps or sunglasses, over time, the targeted individual will believe that anyone wearing a blue baseball cap or sunglasses is a stalker coming to harass them.

Gas-Lighting

Gas lighting refers to presentation of false information for the purpose of making victims doubt their own memory, perception, and sanity.

Hacking

Hacking generally refers to the downloading of viruses and malware as well as gaining remote access to a targeted individual's electronic devices. After gaining such access, stalkers are able to delete files, modify files, and contemporaneously interfere with a target while he or she is working.

It is my hope that you will accept the challenge as I have. Again, I strongly urge you to consider passing a bill or resolution to conduct an investigation into the harassment outlined in my letter above. Thank you for your consideration.

Sincerely,
